

SITUATION IS ALARMING

AFFAIRS MUCH DISTURBED AT CAPE HAYTIE.

Commander McRea Will Protect the Rights of Foreigners and Americans.

WASHINGTON, July 29.—The following cablegram was received at the navy department from Commander McRea, of the Mathias, which arrived at Cape Haytien yesterday:

"Affairs are very much disturbed at Cape Haytien. Unorganized mob in city. Foreign consuls threatened. Will give protection on board. Will prevent bombardment without due notice."

The state department has no hesitation in fully approving the energetic action of Commander McRea in taking care of the foreign consuls and preventing bombardment without warning. The American and foreign interests in Cape Haytien are large, and the American captain is required by unwritten law to look after the life and property of the other foreign residents as well as the Americans in such a case.

PROMINENT GENERAL CHARGED WITH MURDER.

Commander of Cuban Sharpshooters in the Late Revolution.

NEW YORK, July 29.—General Percio Del Gado is under arrest, according to a World dispatch from Havana, charged with having assassinated Antonio Acosta, a nephew of Colonel Baldomero Acosta.

The arrest has caused a profound sensation as General Del Gado is one of the best known Cubans. He commanded the Cuban sharpshooters who operated against Weyler's Black Spanish guerrillas in the late revolution. He is now an officer in the Cuban rural guard and has been acting as chief of police of Punta Prava, where Maceo was ambushed and killed.

General Del Gado's trial promises to be sensational as there has been much mystery surrounding the disappearance of young Acosta from his home six weeks ago. It is said that Colonel Acosta, the young man's uncle, obtained private information that his nephew was seized by guards under Del Gado and was afterwards seen taken from the police station at midnight handcuffed and between two of Del Gado's men. Then Colonel Acosta is said to have discovered that no record of his nephew's arrest had been made, and that no warrant had been issued. He at once preferred the charges against Del Gado that resulted in an order from Havana for his arrest.

Young Acosta was aide de camp to General Del Gado during the recent war, and for a long time was his confidential secretary. Not long ago charges were made by Del Gado by a number of cattle owners, in connection with the operation of cattle thieves.

FORBIDDEN TO LIVE IN HIS NATIVE LAND

Owing to Publication of Articles Showing Sympathy for Oppressed Russians.

(Correspondence of Associated Press.) ST. PETERSBURG, July 29.—Peter Von Struve, the noted Marxist, who went abroad in 1901, when forbidden to live in St. Petersburg, has begun the publication in Stuttgart of a Russian periodical under the title "Osvobodivshiesia" (Emancipation). In his prospectus, Von Struve proclaims the extreme of his paper to be emancipation of the Russian people from police oppression, and the attainment of individual and social liberty. In his prospectus he says:

"The social reaction which followed the murder of Alexander II. has completely disappeared and the political reaction is constantly being strengthened. The government is making its last desperate efforts to perpetrate an antiquated order of things."

"We shall defend the necessity of granting to all classes equal rights to untrammelled development and we insist upon an immense change."

"Emancipation will not be the work of one class, party or doctrine. We shall illumine all sides of Russian life; the 'intelligence' especially of the youths in schools, the position of the organs of the local self-government and of the press and the struggle for religious liberty. We shall criticize the acts of the government thus supplementing the oppressed press in Russia."

"We shall show that economic improvement can come only through participation of the people in the government by electoral representation and shall expose the exploitation of the peasantry by high protective duties and excessive taxation."

"We shall not be moderate. Let emancipation be openly proclaimed by the common action of revolutionists and moderates. The oppressors of the people cannot meet such a challenge squarely given."

This journal will be circulated in Russia by sealed letter post. It recalls the famous "Kolokol" (Bell) of Herzen, which was the organ of emancipation during the early years of the reign of Alexander II. It "cured" its way regularly on to the desk of the then emperor and was read by him eagerly, though strictly forbidden circulation in Russia. The influence of this journal with Alexander II. was at one time very great.

HALF MILLION DOLLAR FIRE IN PITTSBURG.

Five Firemen Injured by Explosions of Oil Tanks.

PITTSBURG, July 29.—Two buildings in flames, a prospect of a half million dollars damage and five injured firemen was the situation that confronted the Pittsburgh fire department at daybreak this morning. The buildings on fire were those of Stewart Bros. & Co., 917 Liberty avenue; the De Noon Bros., paint and varnish company, 919 Liberty avenue, and V. E. Wart & Co., 921 Liberty avenue.

The injured firemen are: Lieutenant Douglas Leach, Cornelius Buckley, William Ditzell, William Reese and Daniel Gallagher.

None was seriously injured. The fire originated on the first floor of the eight-story building occupied by the De Noon Bros. Company. When the firemen reached the scene smoke was issuing from every window of the structure.

In the cellar and lower floor were stored large quantities of paints, varnishes, turpentine, etc. An explosion in this material, while the firemen were on the fire escapes fighting the flames, sent a blast of fire out upon the men. The flames struck the firemen full in the face. The men dropped the hose and writhed and struggled to get out of reach of the withering heat. Some almost fell down the fire escapes; others slid down the side railings and a couple hung by their hands until rescued by their companions. The injured men were taken to hospitals, where their injuries were pronounced not fatal.

At 2:30 o'clock occurred a second explosion, even more terrific than the first, although no one was injured by it. The flames ate their way, after consuming the De Noon place, into the rubber goods establishment of Stewart Bros., at 915 Liberty avenue, which was also practically destroyed. S. E. Wart & Co., wholesale grocers at 421 Liberty avenue, suffered heavily from water and smoke. The furniture firm of Spear & Holler, whose sale millinery firm of J. J. Potter & Co., on Pennsylvania, in the rear of the burning buildings, but separated by an alley, will suffer heavily.

The loss will probably not fall far below half a million dollars.

STARVED INDIANS FIGHT TERRIBLE BATTLE.

Band of 36, Nearly Half of Them Women, Fight With Mexican Troops.

SAN FRANCISCO, July 29.—A special from Tucson, Ariz., says:

Driven to desperation by hunger and thirst, a band of 30 Yaquis, nearly half of them women, swooped down upon the Carmen ranch, near Hermosillo, Saturday and a fierce and bloody fight followed. The women fought with ferocity of wild animals and when a patrol of Mexican troops galloped down to the rescue two of the women and five of the men lay dead. The Yaquis were quickly overwhelmed.

They were weak from hunger and when attacked by superior numbers they were compelled to surrender. Fifteen prisoners were marched to

INSURANCE COMPANY POLICY

Colds Cost the Insurance Companies A Million a Month

"Colds cost the Insurance Companies a million dollars a month." That is the authoritative statement made by a leading insurance journal. Twelve million dollars a year paid on account of colds. Who gets the money? The widows and orphans of the men who had colds. Could there be a more striking presentation of the fact that colds kill than this commercial statement in which the cost of human life is figured in dollars and cents? But even these figures must be inadequate to express the final monthly total of the victims of colds. Thousands of men who die as the result of colds are not insured. A very small proportion of women carry life insurance and these figures do not take account of the thousands of women who are sacrificed to colds. Colds kill. That is a thing to remember. Colds kill because many of the most dangerous and fatal diseases begin with a cold. To neglect a cold is to trifle with danger.

Offset this statement that colds cost the insurance companies a million dollars a month by another statement; almost every life represented by that million dollars could have been saved by the timely use of Dr. Pierce's Golden Medical Discovery. It cures colds, coughs, bronchitis, lung disease, hemorrhage and conditions generally which by neglect or unskillful treatment find a fatal termination in consumption. That these cures are perfect and lasting is testified to by thousands of representative men and women, including clergymen and physicians.

"I took a severe cold which settled in the bronchial tubes," writes Rev. Frank Hay, of Nortonville, Jefferson Co., Kansas. "After trying medicines labeled 'Sure Cure,' almost without number, I was led to try Dr. Pierce's Golden Medical Discovery. I took two bottles and was cured, and have stayed cured. When I think of the great pain I had to endure, and the terrible cough I had, it seems almost a miracle that I was so soon relieved."

"In 1898, one of my daughters was suffering on account of a severe cough, hectic fever, wasting of flesh and other symptoms of diseased lungs," writes Rev. Joseph H. Fesperman, of Barium Springs, Ireland Co., N. C. "I promptly gave her Dr. R. V. Pierce's Golden Medical Discovery with gratifying success, and she now enjoys excellent health. This experience caused me to recommend Dr. Pierce's remedies to my neighbors, who, without exception, used them with favorable results. This being true, I hereby heartily endorse your medicines."

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the state of North Carolina, who said the trouble had reached my lungs," writes Mr. J. M. Patton, of Clothe, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicines. Will say Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me and to-day I am well and hearty, and I will say further, that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicine to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all."

"I was troubled with a bad cold, which settled on my lungs and left me with a miserable cough," writes Mr. Joseph D. Burns, of 318 Huestis Street, Ithaca, N. Y. "I used two bottles of 'Golden Medical Discovery,' after which my cough disappeared entirely. I cannot recommend your medicine too highly."

These statements are made by representative people. They are reliable statements, and those who are guided by them need not swell the list of victims who die of colds. One of the dangers of a cold, especially as it progresses, is that people will be content to use some syrup or preparation based on opium, and think they are safe. Such things are mere palliatives. They soothe and quiet but they do not retard the progress of disease. Doubtless everyone of the victims of colds used something with the intention of being cured. But they failed to use the one thing which would cure them, Dr. Pierce's Golden Medical Discovery. It always helps. It almost always cures. There is no alcohol in the "Discovery." It is a true tonic, building up the body with solid flesh and enriching the blood with the red corpuscles of health.

Do not allow a dealer to palm off on you a substitute for "Golden Medical Discovery," claiming it to be "just as good." The record of those who have tried "medicines almost without number" and found no cure until they used the "Discovery," proves there is no other medicine "just as good" for colds, coughs, and lung diseases.

MURDERED WOMAN IDENTIFIED.
CHICAGO, July 29.—The young woman who was found dead early yesterday morning in a wine room of a Wells street saloon, has been identified as Mrs. Ernest Blohm, who disappeared from her home in La Salle avenue two weeks ago. The police have abandoned the theory of murder and state that the woman probably died of strangulation. Edward Gough, the man who accompanied Mrs. Blohm to the saloon, is held pending further investigation.

PRESIDENT COMMUTES
SOLDIER'S DEATH SENTENCE
SAN FRANCISCO, July 29.—Orders received at army headquarters in this city announce that President Roosevelt has saved a soldier from hanging. Guy Stevenson, Troop M, Ninth Cavalry, was found guilty of criminal assault and sentenced to dishonorable discharge and death. The sentence was approved by the secretary

of war, but the president has commuted the sentence to 15 years imprisonment. Stevenson is now at Alcatraz Island, but will go to the United States penitentiary at Leavenworth, Kansas.

FRENCH NAVAL OFFICERS
RELIEVED FROM DUTY.
Downfall Attributed to Sensational Developments Which Led to a Suicide.

PARIS, July 29.—Two distinguished naval officers, Vice-Admiral De Beaumont, maritime prefect of Toulon, and Rear-Admiral Sevrin, commanding Atlantic division, have been summarily relieved of their commands by order of President Loubet.

Rear-Admiral Sevrin's downfall is attributed to the sensational developments which led up to the recent suicide of Commander Berry. De Beaumont's discipline is said to be due to recent review severely criticizing Minister of Marine Pelletan.

M. Pelletan, minister of marine, attributes the dismissal of Vice-Admiral De Beaumont for his having upon the national fête, July 14, placed his mistress in official tribune with perfect of Mayor of Toulon, and saluted her while ignoring them.
